easy peasy

Supplies

- 1 Amor Button (94-6582-40)
- 4 Jardin Barrel Bead (94-5809-40)
- 13 10mm Large Hole Gemstone Beads (African Turquoise shown)
- 17" 2mm Round Leather Cord (Ant. Red Brown shown)

Required Tools

Scissors, flat nose pliers, super glue

Finished Size

Approx. 8 inches

Instructions

TIP: Grasp cord at each end and stretch it before using. This will minimize stretching later.

1. Fold one end of cord over 5".
2. Form button loop by tying both strands together in an overhand knot, forming a $\frac{3}{4}$ " loop and leaving a 3" tail. (Fig 1)
3. String three barrel beads onto cord, covering tail and bringing them next to knot.
4. Tie both strands in second overhand knot after last barrel bead. Add small drop of glue into knot and tighten securely.
5. String gemstone beads onto long end of cord.
6. String final barrel bead.
7. Attach button by threading cord through shank, then passing back through barrel bead. (Fig 2)
8. Use flat nose pliers to crimp barrel bead until secure. (Option: Add small drop of glue into barrel bead before crimping for added security).
9. Trim excess cord at both ends of bracelet.
